RISK MATRIX					
Probability	Severity				
	5-Catastrophic	4 Critical	3 Major	2 Minor	1 Negligible
5-Frequent	25	20	15	10	5
4-Occasional	20	16	12	8	4
3-Major	15	12	9	6	3
2-Minor	10	8	6	4	2
1-Negligible	5	4	3	2	1

Probability/Likelihood	Definition	Value
Frequent	Likely to occur many times Has occurred frequently	5
Occasional	Likely to occur sometimes Has occurred infrequently	4
Remote	Unlikely to occur, but possible Has occurred rarely	3
Improbable	Very unlikely to occur Not known to have occurred	2
Extremely Improbable	Almost inconceivable that event will happen	1

Severity	Definition	Value
Catastrophic	Fatality or disabling injury	5
Critical/Hazardous	Serious injury/illness or Dangerous Occurrence (Refer to Riddor Guidance)	4
Major	"3-Day" injury or illness	3
Minor	Minor injury or illness (first-aid only)	2
Negligible	No injury accident or incident	1

HAZARDS ASSOCIATED WITH ACU PERMITTED EVENTS TAKING PLACE DURING THE COVID-19 CRISIS

SAFETY ASSESSMENT STATEMENT

1. This Risk Assessment has been produced which outlines hazards associated with motorcycle sport events taking place in a Covid-19 environment following the proposed easing of restrictions as part of the Roadmap announced by the Prime Minister on 22nd February 2021. The Assessment specifically looks at mitigating the risk in line with Step 2 of the Roadmap.
2. The Risk Assessment takes into consideration hazards to competitors/officials/marshals/teams/mechanics/families/spectators in a period following 12th April when Stage Two of the Roadmap comes into force. It should be noted that following the latest UK Government advice, planned stages of the Roadmap may be moved dependent on the data available to the UK Government who will make decisions based on the data available and not dates to maintain a cautious approach to the easing of lockdown restrictions which are hoped to be irreversible.
3. The Risk Assessment allows for motorcycle sport events to take place in a responsible, controlled, and safe manner, but at all times taking into consideration government advice/guidance published or issued at any time.
4. Government Advice / guidance will take precedent and will always be followed by ACU Ltd.
5. Organising Clubs also need to be mindful of and follow the guidance / advice issued by devolved Governments and Crown Dependencies such as the Isle of Man / Channel Islands.
6. Organising Clubs need to be mindful of certain areas/premises where the risks of transmission may be higher and as such put in place control measures appropriate to the area.
7. Organising Clubs may wish to adopt this risk assessment as their own and in doing so may add additional measures to suit local needs. If using this risk assessment, an Organising Club accepts responsibility for its content and accepts the control measures that have been identified.
8. As the initial assessed level of risk has reduced, so the residual level of risk has been re-assessed as a result of recommended control measures to be put in place considered to be suitable and sufficient and to adopt a position of as low as is reasonably practicable in terms of the control measures put in place to mitigate the risk.

RISK ASSESSMENT

Given the global spread of Coronavirus, the way in which we run our events has to conform to the new Roadmap outlined by the Prime Minister of 22nd February. Consideration has therefore been given to the following:

Implementation of Covid-19 Policy at Events. The responsibility for the implementation and if required the adaptation of the Covid-19 policy at events rests with the Clerk of the Course and the Chief Medical Officer with the Chief Medical Officer making any final decisions as necessary.

NHS Vaccine. The very successful NHS Vaccine programme continues at a pace and provides a significant control measure in mitigation of the risk against Covid-19. As such the NHS Vaccine programme features as a key control measure in the detailed risk assessment outlined below. A very large proportion of Marshals and Officials who sign on at an event fall in the Groups 1-6 of the vaccine rollout and will have already received the vaccine. That coupled with those who have anti-bodies from having contracted the virus suggests a significant proportion of the Track Racing community will already have protection.

Travel to/from the Circuit/Venue. Travel to and from the circuit/venue will be dependent on current UK Government advice / guidance in place at the time. The rule of six came into force on 29th March and also the mixing of two households, so members of two different households may travel in the same vehicle. Competitors / Officials or someone in their household or support bubble showing coronavirus symptoms, everyone in that household / support bubble should stay at home. If a competitor / official or a member of the household or support bubble are contacted as part of the test and trace programme, the individual contacted should stay at home. If that individual becomes symptomatic, everyone in the support bubble must self-isolate and stay at home.

Signage. Signage should be displayed prominently at the venue in obvious locations where persons are likely to congregate to emphasise any social distancing measures that may be in place in accordance with UK Government advice/guidance issued.

Accommodation at / around the Circuit/Venue. With effect 12th April, overnight stays in self-contained accommodation is permissible at Circuits / venues. Overnight stays in local hotels is permissible provided the individual states they are there in a 'work capacity'. Domestic overnight stays in hotel accommodation is not permissible. Officials signed on to provide assistance at a motorcycle sport event can be classed as 'work'.

Event Duration. From 12th April, Event Organisers may hold two (or more) day events.

Spectators at ACU Permitted Events. Spectators are not permitted at ACU events until at least 17th May or when UK Government Advice/Guidance allows for spectators to attend sporting events.

Spectator Car Parking. Once Government advice / guidance allows, the Organising Club should make provision for responsible spectator car parking. Vehicles should be parked to ensure a suitable distance between each vehicle to allow for current UK Government protocol on social distancing. Dependent on UK Government advice / guidance, spectator movement should be kept to the minimum.

Pedestrian Routes / One Way Systems. Event Organisers may wish to consider pedestrian routes to allow safe access to washroom / toilet facilities with the width of the route to allow for social distancing measures. You may also wish to consider a one-way system back to the designated spectator area be put in place and marked appropriately. Spectators may or may not be required to wear face masks dependent on advice / guidance in place at any time issued by the UK Government.

Spectator Areas. Once Government advice / guidance allows, spectator numbers / areas may be dictated by advice / guidance outlined as part of the UK Government Roadmap.

Face Coverings. Face coverings should be worn at all times by those attending an ACU permitted event and social distancing measures should be adhered to throughout the period of the event.

Youth participation at an ACU Permitted event. Youth participation is allowed in ACU events. Accompanying parents/legal guardians should consider Social Distancing measures in place at all times and wear face coverings. Should a rider fall, then the parent / legal guardian only should assist the rider. If this is not possible, a trackside Marshal should assist the young rider ensuring he wears appropriate PPE at all times. Accompanying adults should be kept to the minimum, ideally just the parents, however if a mechanic is required, then consideration should be given to just one parent and a mechanic to accompany the youth rider.

Signing On. Signing on should take place with current social distance measures in mind (social distancing measures issued by the UK Government currently stipulate a 2-metre distance between each person). Race Organisers should also provide additional protection for Race Office staff by providing transparent Perspex shields as seen at Supermarkets in front of Cashiers. Race Office staff to also be provided with face masks / gloves. A wet signature is not required at Signing On. A process is put in place which allows Race Administration staff to verbally ask each competitor if they agree to the standard declaration (*which could be posted in large letter format on the counter*) and then tick a box next to that competitor's name on the Signing On sheet. It is important that more than one person witnesses the individual agreeing to the standard declaration. Alternatively, if Organisers want to sign on competitors in the normal manner, then they should make provision to obtain disposable pens for competitors to sign on or ensure competitors are aware that they are required to bring a pen with them to sign on at the Race Office. Individual slips of paper (complimentary slip size) will be required to be signed by each individual to state the competitor agrees with the requisite declarations as defined on the Entry Form for the event. The slips of paper are then deposited into a box which is to be sealed once Signing On is complete. The box is to remain sealed for a period of four days which will be enough time for any traces of Coronavirus to be eradicated. Race Office staff are not to handle the competitors' licence. Riders should hold the licence sufficiently for the Race Office staff to be able to view the photograph and turn the licence on the flip side so the Race Office staff can view the reverse of the licence.

Signing On for Officials/Marshals. Where possible prior to the event, Officials / Marshals should be listed on the Officials Signing On form. When they come to 'sign on', they are read the declaration and then their name ticked off on the Signing On sheet. For the Officials/Marshals, whose names doesn't already appear on the Signing On form, those individuals sign on as normal and following the use of a pen, the pen is quickly sprayed/wiped with a sanitizer/wipe before it is used again. This will prevent cross-contamination. Equally, individuals should be encouraged to use their own pen to sign on with. Face coverings should be worn during the signing on process if local conditions deem it necessary to do so. Following the signing on process, all paperwork should be secured in a box/container for a period of 72 hours to allow any traces of the coronavirus to die off.

Technical Inspection. Machines/clothing/helmets etc to be placed in a designated area as indicated by the Technical Official, the competitor then steps away to a safe distance to allow the Technical Official to carry out the inspection. Technical Officials to wear face masks and gloves. Competitors should also wipe their clothing/helmets with a disinfectant wipe/cloth before taking their kit for Technical Inspection. Signing of the necessary declarations as per the measures outlined above for Signing On.

Marshals. Each Marshal point to observe social distancing measures in place at the time of the event. Marshals may wish to wear suitable PPE (face coverings / gloves) which the Organising Club may consider making provision for. In the event of an incident, this may result in longer delays which would cause more delays to the Race Schedule.

Medical Staff. As above with the Marshals, Medics will need to observe social distancing measures in place at the time of the event and be equipped with appropriate PPE (face masks / visors / gloves). Medical Staff would be expected to conduct their own training and ensure each individual was up to date with current recommended guidelines and practices.

On Track Activity. Start Line Officials to observe social distancing measures and it is recommended that face coverings are worn at all times.

Sidecar Crews. Sidecar drivers and passengers can be parked adjacent to each other but must adhere to social distancing measures in place and wear face coverings. They should only come together in close proximity once they have their helmets and gloves on.

Pit Walks. Until informed otherwise, Pit Walks / public admission to pit areas should not take place. Only authorised personnel are allowed in the Pits and social distancing measures are to be observed. Face coverings to be worn by individuals at all times. Individual pit areas to be established to take into consideration social distancing measures. Mechanics / team / support members are to be restricted to minimum numbers.

Rule of Six. The following applies to Teams/competitors in the Paddock:

- Have 'groups' of no more than six in their awnings or two households.
- Wear face masks when moving outside of their awning.
- When queuing for food/beverages at food outlets to wear face masks.
- Maintain social distancing as per current UK guidance/advice

Track Maintenance. To reduce cross-contamination, track maintenance should be carried out by the same person. That person to be equipped with appropriate PPE. Equipment to be sanitised before use.

Mechanics. Each competitor is restricted to one mechanic. The mechanic should only use his own tools, tools are not to be shared.

Race Control / Timekeeping Staff. To wear face coverings. Race Control to be well ventilated to allow for fresh air to circulate.

Food Outlets. In accordance with UK Government Advice/Guidance, Event Organisers may wish to make the necessary arrangements to safely operate on-site catering facilities / external food outlets (burger vans etc). Government advice should be adhered to and it is also recommended that an external Vendor provides a risk assessment to demonstrate he is operating in accordance with up to date government regulations. Face coverings to be worn at all times.

Washroom / Toilets. Entrance to washroom / toilet facilities to be monitored to allow personnel in to observe social distancing measures. Signage should be displayed to emphasise control measures in place regarding washroom / toilet facilities. Competitors / Officials are responsible for providing their own handwash facilities whilst in the Paddock area. Face coverings to be worn at all times.

Litter and Waste. It is the responsibility of each rider / Official / member of the public to take their own litter / waste away with them. This should happen as a matter of course, but given the circumstances surrounding Covid-19 this is now much more prevalent.

ACU Competition Licence. Every rider wanting to compete in ACU permitted competition requires an annual ACU competition licence and as such needs to apply for a licence using the relevant ACU Competition licence form. When completing the competition licence form, the rider must complete Section 3 – Medical Information. In this section, the rider should declare any ongoing medical issues. In doing so, the rider may well then be required to seek a Medical Report from a Doctor. Any competitor over the age of 70 needs to see a Doctor to obtain a Medical Report. In light of Covid-19, for the time-being there is no change to the current medical requirements. The self-declaration (section 3) and if required, Doctors Report (Section 5) is completed to ensure the competitor can suitably control a motorcycle. There may be further restrictions in place regarding Covid-19 in accordance with UK Government Advice / Guidance regarding Testing and Anti-Body testing once that has been established and published.

Additional Costs. Organising Clubs should be aware of the additional costs involved in providing additional/enhanced cleaning of toilet facilities. Also, it should be borne in mind the requirement to provide manual monitoring of access to toilet areas. If no individual in the Club volunteers to take on this role, this role may have to be paid for.
