

Open Forum ---- Saturday 5th October 2013

In the interval the chairman called as many riders to attend the meeting as possible and asked those present about the Eastern Centre Grass Track Championships with having only a one day championship nobody seem to have any opinions to this question so the chairman stated that the committee had discussed this matter in earlier meetings and with this the 2014 Eastern Centre Grass Track Championships Meeting would be held on a one day event we would hope to include all classes so we would look at the National dates before we decide on the date and club and venue. We would have to ask all clubs that will be running a meeting to see if they were prepared to run it and then the sub- committee will sit down and decide on where and when it would be held and try to avoid clashes with neighbouring centres or National Meetings. With no other questions the chairman thanked the riders for their attendance and closed the forum.
